#SOCIOPERCEPTION
Taking care of humanist metamorphosis
Alain de Vulpian' thoughts
Reflections' Convergences

FORUM 104
104 rue de Vaugirard
75006 PARIS

*Tribute to the anthropo-sociologist **Alain de Vulpian**, founder of COFREMCA, who passed away at the end of 2020 at the age of 91.*

- Discover his philosophy and his work in an inspiring course in the morning and a learning course in the afternoon through an intergenerational and inter-organizational dialogue in networks of networks throughout the day.
- Deepen the main themes of this thought to better understand the complexity of living and its capacity for self-regeneration.
- *By discovering together the weak signals, the heavy trends, and the dynamics constituting opportunities, we will take care of the humanist metamorphosis, observed for more than 60 years. By creating a collective consciousness, we will seek ways to co-create a sustainable common future.*

A SEMINAR TURNED TOWARDS ACTION **with the methodological optimism of Alain de Vulpian**

facilitated by Marie Christine Villagordo, Sean Lafleur
